**GLOBAL REMOTE TECHNOLOGIES ENTERS INTO
SALES DISTRIBUTION AGREEMENT WITH POLARIS GUIDANCE PRODUCTS, LLC.**

Vancouver, B.C. - (July 2, 2015) Global Remote Technologies Ltd. (the “**Company**” or “**Global Remote Technologies**”) (CSE:RGT) is pleased to announce that it has entered into a sales distribution agreement with Polaris Guidance Products, LLC (“**Polaris**”) dated June 8, 2015 (the “**Agreement**”). The initial term of the Agreement is one year. The Agreement will then be automatically renewed at the end of the initial term for an additional year and automatically renewed each year thereafter. The Agreement may be terminated by either party with 60 days’ written notice after the expiry of the initial term of the Agreement.

Pursuant to the Agreement, Polaris has granted Global Remote Technologies the right to purchase its complete line of remote drilling systems for resale to third parties in North, Central and South America at such prices as the Company may deem appropriate or reasonable. Furthermore, Global Remote Technologies is entitled to receive 15% of the subscriptions it obtains from its customers for and on behalf of Polaris which relate to Polaris’ WITSML Server. Further information regarding Polaris’ WITSML Server and other products in Polaris’ line of remote drilling systems can be found at www.polarisguidance.com/.

“The Agreement marks an important milestone for our business expansion,” said Chris Dorris, President and CEO of Global Remote Technologies. “The Agreement fits very nicely with our existing technology, services and product lines. We are hopeful that the Agreement will increase our sales and customer base within the oil and gas industry.”

About Polaris

Polaris is an innovative supplier of drilling motors, MWD logging systems and WITSML data solutions for the oilfield drilling sector. Polaris is committed to providing superior technological products and strong customer support which translates into a significant competitive advantage to our customers allowing them to fully exploit their specific market niche.

About Global Remote Technologies

Global Remote Technologies focuses on the deployment of emerging technologies for the energy sector. The company has licensed multiple patent pending tools for the oil and gas industry, which are currently being assembled for release in later 2015. Using its advanced engineering and leadership experience, the Company brings cutting edge processes and technology to the oil patch. Its remote sensor packages transmit telemetry from drilling and production sites in real time to a central server where it is viewed in the cloud. The systems are designed to provide key personnel an early warning system to avoid equipment failures or costly compliance fines. Global Remote Technologies collects and communicates vital information on the status of equipment, tanks, and pipelines for exploration, production, and transmission of oil, gas and water. The company is headquartered in Vancouver, BC, with offices in Denver, Colorado and Houston, Texas.

Further information about Global Remote Technologies is available under its profile on the SEDAR website, www.sedar.com, on the CSE website, www.thecse.com, and at the Company’s website, www.grtcse.com.
